# THICK & CREAMY WASABI DRESSING

Thicker and creamier dressings and mayonnaises are becoming market favorites. A shiny, glossy smooth appearance reinforces their premium feel.

This 30% oil-based dressing has a thick, luscious and indulgent mouthfeel, reinforcing the exotic and bold wasabi flavor. It's easy to prepare even in cold processing conditions, thanks to **C☆HiForm® 12748 cold water swelling starch**.

Its spicy headnote and creamy texture go perfectly with a seared sirloin steak salad or crunchy lettuce.

## Ingredient list

- Water
